PER FACILITARE IL POSIZIONAMENTO DELLO SPECCHIO SULLA PARETE:

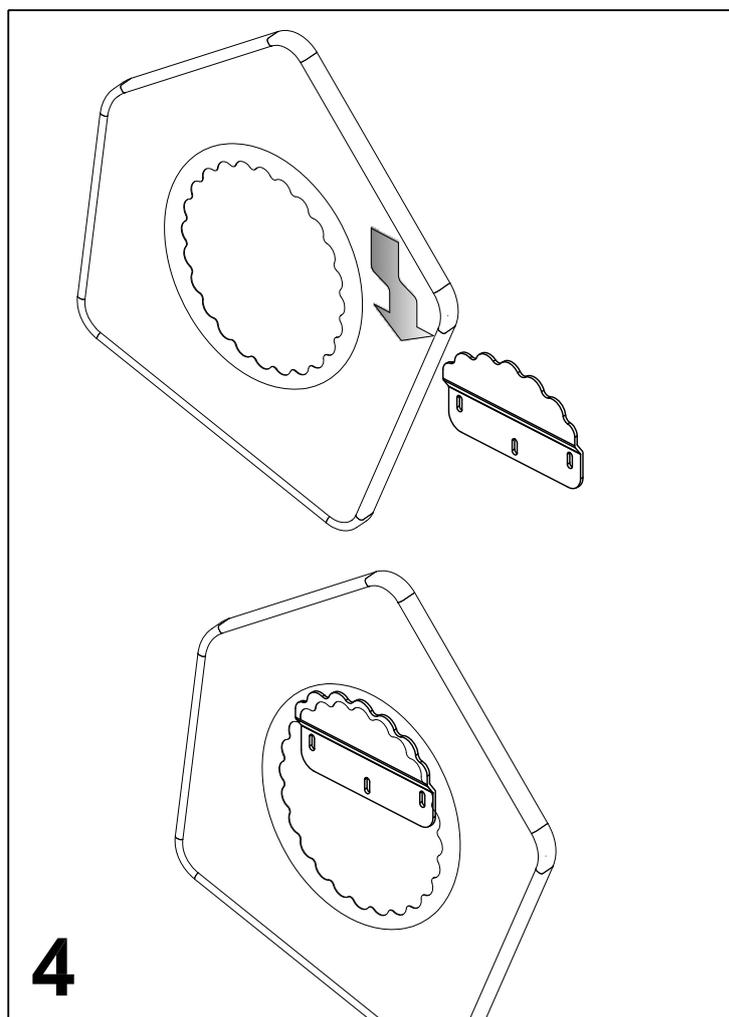

1. Segnare e forare la parete in corrispondenza dei fori del supporto (*almeno due fori*).
2. Fissare alla parete il supporto in metallo con le viti e i tasselli in dotazione.
Verificare che tasselli e viti in dotazione siano adatti al tipo di parete alla quale fisserete il supporto, altrimenti provvedere alla sostituzione con materiale idoneo.
3. Agganciare lo specchio sul supporto in metallo.

Lo specchio può essere ruotato a piacere

TO EASILY POSITION THE MIRROR ON THE WALL:

1. Mark the holes of the metal support and then drill them (*make at least two holes*).
2. Fix the support to the wall with the dowels supplied. Please **check** that the hardware supplied is suitable for the wall the mirror will be hung on.
Otherwise, replace them with suitable hardware.
3. Place the mirror on the metal support.

The mirror can be turned as preferred

DISCLAIMER Any included instructions are meant for general application only. All assembly, installation and mounting applications are the sole responsibility of the customer/installer. Porada accepts no liability for the safe and proper assembly, installation and mounting of any of its products. Any and all included instructions are meant for advisory purposes only and the use of them is completely voluntary.

Porada makes no representations or warranties, express or implied, in connection with the information. Any use or application of this information will be at the customer/installers sole risk and responsibility. Porada will not be responsible for any loss, claims or damages arising out of the use or application of this information, regardless of whether the same may be known or foreseeable.

It is the sole responsibility of the customer/installer to see that all installation and mounting procedures conform to any local and state codes and statutes that may apply. For this reason it is recommended that all assembly, installation and mounting be performed by a qualified contractor.
